SCAN FOR PORTFOLIO

UI/UX designer, graphic designer and full-stack web developer with **5+ years** of experience. I design and build **internal web apps that replace manual processes**, create brand and social content, and customize client websites — research, visual design and code from one person. Always learning, and at my best where design, technology and new ideas meet.

EXPERIENCE

IT Specialist
JAN 2024 – NOV 2026

Lear Corporation · Engineering Branch, Cebu

- Designed, built and launched v1 of the **PPAP Operations Database (POD)** as the sole developer in Q1 2025, working with management to keep scope and communication on track.
- Designed and developed a departmental **Asset Management System (AMS)** to track equipment and handle user requests; delivered it within IT policy limits on executable files by agreeing an approved approach with management.
- Integrated new updates into **IMDS Solutions Central (ISC)**, an application that speeds up manual IMDS tasks and requests.
- Created wireframes and interactive prototypes in **Figma**, and designed application logos with Adobe Creative Suite and Canva.

Web Modification Specialist
SEPT 2021 – JAN 2024

Newfold Digital

- Customized and maintained personal, business, community, utility and lifestyle websites in **WordPress (Elementor, Bricks)**, Siteplus and Hermes CMS.
- Member of the **pioneer team** behind the company's first web designs.
- Designed social media posts, stories and ad creative with Figma, Adobe Creative Suite and Canva for **Meta Ads and Google Ads**.
- Built and managed **Go High Level** funnels and websites.
- Named **Top Performer** twice — January 2023 and October 2023.

On-the-Job Training
MAY – AUG 2019

Lear Corporation

- Pioneer developer on the **Global Flammability** website, building report views and data import/export.
- Created wireframes and prototypes for ISC and assisted with its authentication module.

SELECTED WORK

● **Cruz & Garcia**	Brand identity and social campaign for a dental clinic
● **The Hive at Gateway**	Website and mobile layout for a coworking space
● **C&O Sportswear**	E-commerce website for a custom apparel shop
● **POD · AMS · ISC**	Internal web apps at Lear (ASP.NET, C# .NET Core)

EDUCATION

BS Information Technology
2015 – 2020

University of Cebu Lapu-Lapu and Mandaue

- Thesis: a **Computerized Capstone Management System** that let graduates update their status and track task completion.
- Worked at the university while studying.
