Cebu, Philippines | +63 928 701 7913 | cgabayeron96@gmail.com | cgabayeron-portfolio

SUMMARY

I'm very passionate on creating user-friendly and visually engaging digital solutions, hence my design and full stack experience. With hands-on experience building internal applications and improving business processes, I also incorporate automation and optimization strategies to reduce manual work and enhance productivity. I'm passionate about continuous learning and contributing to teams where design, technology, and innovation intersect.

Canva
Meta Ads / Google Ads
Go High Level
Microsoft Automation
HTML, CSS and JS
C# .Net Core
ASP .Net

PROFESSIONAL EXPERIENCE

Lear Corporation - IT Specialist **Jan 2024 - Nov 2026**

- Made Logos for the applications using Adobe Creative Suite and Canva.
- Made Wireframes and Prototype using Figma.
- ISC - A project during my On-the-Job Training has emerge with new updates. Collaborated and integrated the ISC (IMDS Solutions Central), an application that helps and fasten their manual processes regarding IMDS Tasks and Requests.
- POD - During my work on the PPAP Operations Database (POD), I independently developed and launched version 1 in Q1 of 2025. While the one-developer-per-project model created resource and communication challenges, I collaborated with management to overcome these obstacles and ensure the project's successful completion.
- AMS - As part of a continuous improvement initiative, I designed and developed a departmental Asset Management System. This application provides a straightforward solution for tracking equipment assets and managing user requests. I demonstrated problem-solving skills by working with management to address IT policy restrictions on executable files, ensuring the project's successful delivery.

Newfold Digital - Web Modification Specialist **Sept 2021 - Jan 2024**

- Managed and customized multiple website types (personal, business, community, utility, lifestyle) with WordPress, Siteplus, and Hermes CMS; part of the pioneering team for the company's first web designs.
- Made a social media post, story and ads using Figma, Adobe Creative Suite, Canva, and Meta Ads/ Google Ads. Also managed a Go High Level funnels and websites.

Lear Corporation - On-the-Job Training **May 2019 - Aug 2019**

- Global Flammability Website – Served as one of the project's pioneer developers, contributing to report views and data import/export features.
- ISC - Created wireframes and prototypes while assisting in authentication module development.

EDUCATION

Bachelor of Science in Information Technology **June 2015 - March 2020**

University of Cebu Lapu-Lapu and Mandaue

- Our thesis focused on a Computerized Capstone Management System for the department, which allowed graduates to directly update their status and track the percentage of task completion.
- I also worked in the school while pursuing my studies.
